

HYDRAULIC PROJECT APPROVAL
RCW 77.55.100 - appeal pursuant to Chapter 34.05 RCW

State of Washington
Department of Fish and Wildlife
Region 6 Office
48 Devonshire Road
Montesano, Washington 98563-9618

DATE OF ISSUE: March 4, 2002

LOG NUMBER: 00-F1534-02

NOTE: This approval is a modification and time extension of Hydraulic Project Approval (HPA) 00-F1534-01 issued on January 18, 2002. The HPA reflects a change in plans to use a lift box lowered onto the beach by a crane to remove debris from demolition work done by hand. The original plans to pull the debris by crane to uplands has been replaced by the new plans. Due to the low impact of the project on beach substrate, the project may proceed during the nearshore spring migration period for juvenile salmonids.

PROJECT DESCRIPTION: Remove and Dispose of Derelict Vessels, Boat Cradles and All Other Manmade Debris on the Beach (Code Enforcement Action - City of Bremerton)

PROJECT LOCATION: 1701 Pennsylvania Avenue, Bremerton, WA 98337

#	WRIA	WATER BODY	TRIBUTARY TO	1/4 SEC.	SEC.	TOWNSHIP	RANGE	COUNTY
1	15.MARI	Port Washington Narrows	Puget Sound	14		24 North	01 East	Kitsap

NOTE: This Hydraulic Project Approval pertains only to the provisions of the Washington State Fisheries and Wildlife Codes. It is the permittee's responsibility to apply for and obtain any additional authorization from other public agencies (local, state and/or federal) that may be necessary for this project.

This Hydraulic Project Approval (HPA) does not authorize trespass onto property not owned by the permittee. It is the permittee's responsibility to obtain permission to enter property owned by others.

PROVISIONS

- TIMING LIMITATIONS:** The project may begin **immediately** and shall be completed by **October 15, 2002**.
- Work shall be accomplished per revised plans and specifications submitted by electronic mail from Janet Lunceford on March 4, 2002 as supplemental to the plans entitled, Sesko Abatement JARPA, dated January 17, 2002, and submitted to the Washington Department of Fish and Wildlife, except as modified by this Hydraulic Project Approval.
- All manmade debris on the beach shall be removed and disposed of upland such that it does not enter the waters of the state.
- Removal or destruction of overhanging bankline vegetation shall be limited to that necessary for the completion of the project.

HYDRAULIC PROJECT APPROVAL
RCW 77.55.100 - appeal pursuant to Chapter 34.05 RCW

State of Washington

5. All natural habitat features on the beach larger than 12 inches in diameter, including trees, stumps, logs, and large rocks, shall be retained on the beach following construction. These habitat features may be moved during construction if necessary.
6. Project activities shall be conducted to minimize siltation of the beach area and bed.
7. Erosion control methods shall be used to prevent silt-laden water from entering waters of the state. These may include, but are not limited to, straw bales, filter fabric, temporary sediment ponds, check dams of pea gravel-filled burlap bags or other material, and/or immediate mulching of exposed areas.
8. If a fish kill occurs or fish are observed in distress, the project activity shall immediately cease and WDFW Habitat Program shall be notified immediately.
9. All debris or deleterious material resulting from construction shall be removed from the beach area and bed and prevented from entering waters of the state.
10. No petroleum products or other deleterious materials shall enter surface waters.
11. Wood treated with preservatives, trash, waste, or other deleterious materials shall not be burned below the ordinary high water line. Limited burning of untreated wood or similar material may be allowed at or above the mean higher high water line.
12. Project activities shall not degrade water quality to the detriment of fish life.

SEPA: Exempt, no other non-exempt permits
